

A detailed cross-sectional view of a mechanical assembly, likely a part of a vehicle's suspension or steering system. The diagram shows a central vertical shaft or roller (1) passing through a series of nested components. At the top, there's a large rectangular block (7) with a downward-pointing arrow above it. Below this are various housing and guide components (8, 6, 41, 82). Two circular rollers or balls (3) are shown in contact with the central shaft and surrounding guides. The bottom section features a base plate (1) with internal channels (4, 5) and mounting points (12, 13, 42). Numerous other parts are indicated by reference numerals such as 151, 64, 43, 2, and 71.
